## HOW it works?

### Backend Configuration

Sign in to the Magento Admin panel and navigate to the **Store → Configuration → Magediary → Extra Order & Product Fees**

#### General

<b>Enabled</b> <small>[store view]</small>	Yes	▼
<b>Title</b> <small>[store view]</small>	Extra Fees	
	For order totals block	

#### Frontend

<b>Show on Cart Page</b> <small>[store view]</small>	Yes	▼
<b>Show on Onepage Checkout</b> <small>[store view]</small>	Yes	▼

#### Fee Calculation (only for percent fee type)

<b>Include Discount in Subtotal</b> <small>[store view]</small>	No	▼
	Select 'Yes' to consider the extra fee based on the prices with discount amounts	
<b>Include Shipping in Subtotal</b> <small>[store view]</small>	No	▼
	Select 'Yes' to consider the extra fee based on the prices with shipping costs	
<b>Include Tax in Subtotal</b> <small>[store view]</small>	No	▼
	Select 'Yes' to consider the extra fee based on the prices with taxes	

## General

**Enabled** - Set 'Yes' to enable the extra fees functionality.

**Title** - Set the frontend block title for the cart and checkout page.

## Frontend

**Show on Cart Page** - Set 'Yes' to enable extra fees block on the cart page.

**Show on Checkout Page** - Set 'Yes' to enable extra fees block on the checkout page.

## Fee Calculation (only for percent fee type)

**Include Discount in Subtotal** - Set 'Yes' if you want to calculate the extra fee based on the prices with discount amounts.

**Include Shipping in Subtotal** - Set 'Yes' if you want to calculate the extra fee based on the prices with shipping costs.

**Include Tax in Subtotal** - Set 'Yes' if you want to calculate the extra fee based on the prices with taxes.

## Create New Fees

### Grid

Sign in to Magento Admin panel and navigate to the **Stores → Extra Order & Product Fees by Magediary → Extra Order & Product Fees**.

#### Extra Order & Product Fees

## Add New Fees

### Fees Information

Clicking on the **Add New Fees** button from the grid page, it will create a new entry.

Fees Information 

Enable  Yes

Name \* Express Delivery

Description

Input Type

Checkbox

Store View \* Main Website

Main Website Store

Default Store View

Customer Groups \* NOT LOGGED IN

General

Wholesale

Retailer

From

To

Discard subsequent fees

No

Priority

0

Here we can set some information about the Fee.

**Enable** - Set 'Yes' to enable the fee.

**Name** - Specify the name of the fee that will be displayed on the frontend as a title.

**Description** - Specify the description of the fee used for the backend purpose *only*.

**Input Type** - Specify the input type for the fee. Supported types are:

1. Checkbox
2. Radio
3. Dropdown
4. Hidden

**Store View** - Specify stores for which fees will be listed out on the frontend.

**Customer Groups** - Specify for which customer groups you want to enable this fee.

**From** and **To** - Select time period in between the fee will be displayed on the frontend or leave blank to display all the time.

**Discard subsequent fees** - To stop applying other fees after this fee is applied, set this to "Yes". It prevents the system from applying further fees to the order.

**Priority** - Set priority for the fee.

## Options

Specify fees option that will be displayed on the cart, checkout and admin create order page.

### Options

Is Default	Label *	Type	Value *	Actions
<input type="checkbox"/>	Normal Delivery	Percentage	0	
<input type="checkbox"/>	Next Day Delivery	Percentage	10	
<input type="checkbox"/>	Same Day Delivery	Percentage	20	
<input type="button" value="Add Row"/>				

**Is Default** - Specify either by default select this option or not for this fee. (*Hint:* for the hidden type must select *Is Default* radio button otherwise it won't apply on the frontend.)

**Label** - Specify the label for the option.

**Type** - Specify the input type (**Note:** Percentage will be applied on the order subtotal.)

Possible options are:

1. Fixed
2. Percentage

**Value** - Specify the amount for the option.

**Actions** - Allows deleting the specific option.

**Add Row** - Allows to add a new option.

**Drag** - It allows moving the position of options. The same positions used to show options on the frontend.

---

## Product Conditions

### NOTE:

**Extra fees will be applied on the order subtotal, not on the product price or row total.**

**The rule will list out on the frontend if any one product as per this rule exists in cart.**

### Product Conditions

Conditions (don't add conditions if rule is applied to all products)

If ALL of these conditions are TRUE :

Attribute Set is Bag 

You can specify product conditions, in that, the fee will be listed out on the frontend if at least one product exists in the cart that meets these conditions.

Leave blank to display the fee by default in the cart without any condition.

---

## Additional Conditions (only for percent fee type)

### Additional Conditions

Include discount in subtotal	Default ▼
Include shipping in subtotal	Default ▼
Include tax in subtotal	Default ▼

You can override these default configurations at the particular fee level.

**Include discount in subtotal** - Specify whether you want to add the fee after including the discount amount to the subtotal or not.

**Include shipping in subtotal** - Specify whether you want to add the fee after including the shipping amount to the subtotal or not.

**Include tax in subtotal** - Specify whether you want to add the fee after including the tax amount to the subtotal or not.

If the options are set to 'Default' then parameters for calculation will be taken from the General extension configuration (Store → Configuration → Magediary → Extra Order & Product Fees).

## Frontend

### Cart Page

The customer can select fees on the cart page respectively. The selected fees option will be added on the total. Fees of type percentage will be calculated based on the subtotal.

The below reference screenshot is showing different input types as per added in the backend.

Price	Qty	Subtotal
\$45.00	<input type="text" value="1"/>	\$45.00

#### Summary

Estimate Shipping and Tax
